JEWS ORGANIZE FOR WORK AMONG CANTONMENTS

Another movement aiming to provide for Jewish soldiers services such as the Y. M. C. A. performs for the troops was started yesterday at a meeting of the Young People's Jewish Congress association at the Sherman hotel.

A committee of twelve, with the president of the association, Leo Hoffman, as chairman, was formed for the purpose of nationalizing the movement. The committee was also instructed to begin raising funds, and a considerable amount was subscribed at the meeting.

Judge Hugo Pam made a plea for support of the Liberty loan and started a subscription with the purchase of a \$100 bond. This resulted in individual subscriptions to the loan of \$2,600, while the association itself subscribed \$1,000.

The executive committee, of which Leonard I. Wissmann is chairman, together with the special committee, will visit Camp Grant in the next few days to begin the work of adding Jewish soldiers.
